*Estimated costs for ovulation tracking blood tests are based on patients who have regular menstrual cycles. A full list of blood tests and investigations will be discussed and provided to you following your Initial Consultation/clinical assessment. Patients may choose to undertake the testing directly with Plan your baby or with a local doctor of their choice; however, certain testing may only be performed at Plan your baby. Please contact the clinic for more information.

*Estimated costs for treatment blood tests and treatment medications are based on a standard cycle of IVF/ICSI or Egg Freezing. Additional testing including, but not limited to, Immunology or genetic screening is charged separately. Please note that medication dosages and blood tests vary based on individual circumstance.

For any other investigations, please contact Plan Your Baby.

Fees and payment

The fees for consultations and all investigations are paid directly to Plan Your Baby. Patients are respectfully asked to pay their fees via invoice prior to their appointments and tests. Payment can be made via all major debit or credit cards, including American Express.

Private medical insurance companies do not generally cover assisted conception treatments, but may reimburse consultation fees, blood tests and scans. Patients will be required to make payments at the time of treatment and claim retrospectively from their insurance company.

** Investigation and blood tests can be cancelled no later than 24 hours before your appointment. Within 24 hours of your appointment time, no refund can be issued.

Please contact Plan Your Baby if you have any questions or queries.

Your journey to parenthood starts here with Plan Your Baby.
